MANY INJURED IN BIG WRECK

Six Killed and Thirty-Eight Hurt at Fairville, N. Y.

TRAIN IS DITCHED

Carries Down with It 150 Passengers, Most of Whom Suffered Injuries.

ENGINE JUMPS TRACK

Newark, N. J., August 30.—Six dead, four dying and thirty-eight badly injured was the result of the derailing of the Northern Central train here last night. The dead are:

W.M. MEEHAN,
HOWARD TUBBS,
HARRIET BRADLY,
MELINDA HOOD.

MRS. JAMES FORD,
MRS. PARKER BURGESS.

The escaping steam and scalding water poured upon the coaches and fully fifty passengers were overcome.

The well loaded train was made up at Sodus Point, and consisted of four coaches, a baggage car, and engine. It was running at nearly forty miles an hour. Approaching the station at Fairville there is a curve and gravel pit. The engine jumped the track while passing the gravel pit. The force of the accident turned the engine completely around, throwing the five cars on their sides. The train-load of 150 passengers was thrown into the ditch and the engine and all the cars were badly broken up. Help was quickly summoned from the neighboring houses, and all the assistance possible was given. Word was sent to Sodus and Newark for physicians, and a special containing five doctors left Newark. Upon its arrival the Newark passengers were placed aboard and hastened to Newark. Five were sent to Rochester hospitals. The Rev. Dr. Burges, one of the injured, was for twenty years pastor of the Park Presbyterian church at Newark. He is 73 years old, and it is doubtful whether he will recover. Mrs. Burges is also among the seriously injured. The private car of Superintendent Spencer Mead was attached to the train. His wife was seriously ill. The car was derailed, but the occupants were not injured.

DR. J. W. BASHFORD DECLINES OFFER

Says He Feels That It is His Duty to Remain with the Ohio Wesleyan University.

Chicago, August 30.—Dr. J. W. Bashford, president of Ohio Wesleyan university, has decided to remain with that institution and will not be a candidate for the presidency of Northwestern university. He had been asked informally if he would be willing to have his name considered for the presidency of Northwestern, and in answer sent he following message yesterday to William Deering, president of the board of trustees of Northwestern:

"I am convinced that it is my duty to remain at Ohio Wesleyan. Do not present my name to your board."

PLANS ARE NOT COMPLETE.

State University Regents Consider Building for Agricultural College

Madison, Wis., August 30.—The board of regents of the state university held a special meeting last night to consider plans for the erection of the new building for the agricultural college. Architect Jennings had not the plans quite finished, but the board approved the preliminary sketches submitted and decided to have the excavation for the foundation made this fall and the building erected early next year.

The legislature last winter appropriated \$150,000 for the building. As originally drawn the plans contemplated a building costing \$175,000, but the legislature cut this \$25,000 which necessitates a revision of the plans.

The board will consider the matter further at its September meeting. Dr. Alma J. Frisby of Milwaukee, the first woman member of the board, took an active part in the meeting.

W. W. Winton, district passenger agent of the St. Paul road, was in the city today on business.

ROOSEVELT WILL BE ENTERTAINED

Vice President Will Be Royally Received at Chicago on His Trip West.

Chicago, Ill., August 30.—Vice President Roosevelt and Governor Yates will be invited by the Lincoln club to be its guests at the club rooms, San Francisco avenue and Washington boulevard, tomorrow evening. Plans for the entertainment were made by the president, Albert Wahr, last night. The vice president will be kept very busy by Chicago hospitality all day Saturday. It is expected he will reach Chicago from the capital about 7:30 o'clock tomorrow morning. At noon he will be entertained at the Union League club at a luncheon given to the president and vice president and Governor Yates by Col. Strong. After this they will be taken in charge by the naval militia for a short cruise on the Dorothea. The party is expected to return to the city on the Dorothea about eight o'clock, after which will come the reception to the vice president and the governor at the Lincoln club.

Springfield, August 30.—Vice President Roosevelt arrived here today ostensibly to review the state cavalry but the politicians sent in his visit the formation of an alliance between Roosevelt and Yates for the first and second places upon the republican national ticket in 1904.

THERE NEVER WAS AN ADAM OR EVE; NOT FROM A COMMON PARENTAGE

American Association of Advancement of Science at Denver Talk on Origin of Mankind.

Denver, Colo., August 30.—The professor, absurd. There must have been several such couples.

Professor McGee continued along these lines for thirty minutes, and then the supporters of the common parentage idea got the floor. Prof. George Dorsey, who occupied a front seat at all gatherings of anthropologists, being curator of the Field Museum at Chicago, defended Adam and Eve, and gave exhaustive data to make his argument effective.

He was ably seconded by Professor Frank Russell of Harvard, but the rest of the members went over to McGee, and it was soon apparent that the latter had won the day, and the story of the garden of Eden and its occupants would have to be placed on the shelf with William Tell, Santa Claus, and other interesting but ephemeral personages.

GREATEST WOMAN IN HISTORY

Missouri Teachers' Institute Decides in Favor of Typical Farmer's Wife

Macon, Mo., August 30.—The 200 teachers attending the institute at Atlanta, Macon county, this week were asked by Superintendent F. L. Thompson the question: "Who is the greatest woman in history?"

Queen Victoria led in the answers given, with Francis Willard and Helen Gould next.

The answer of Miss Nannie Vickory, teacher in the New Cambria school, which was awarded the prize, its originality was:

"The wife of the Missouri farmer of moderate means, who does her own cooking, washing and ironing, brings up a large family of girls and boys to be useful members of society, and finds time for her own intellectual and moral improvement is the greatest woman in all history."

HIGH PRAISE FOR NATIONAL GUARD

Inspecting Officer at Camp Douglas Speaks Well of Last Encampment of Badger Soldiers.

Madison, Wis., Aug. 30.—(Special)

In his report on the work of the Wisconsin militia made today to Adjutant General Boardman Lieutenant Chynoweth, U. S. A., inspecting officer, says: "The work during the encampment has been of a very high order, and entitles it to be placed in the front rank of the records of the United States." Standings of companies will not be announced until after the armory inspections. Adjutant General Boardman today directed Col. Falk to order the second battalions of the First regiment to Milwaukee to take part in the parade and reception to General McArthur, September 11. This includes the four Milwaukee companies and those at Madison, Fort Atkinson and Oconomowoc.

Department Commander DeGroff of the G. A. R. today appointed the following aids on his staff: John A. Nelson, Milwaukee; Jarvis White, H. O. Field, West Superior, Thos. Favill, Superior; C. J. Brazee, Morrell; C. B. Sprague, Elkhorn; O. L. Huie, Neenah.

NOT A WORD FROM ENGLAND'S PRIMATE

Member of the Admiral Schley Court of Inquiry Ignores All Suggestions of Resigning.

Washington, D. C., August 30.—Admiral Howison will not serve as a member of the Schley court of inquiry, as he will be forced to retire or incur the risk of seriously impairing the usefulness of the court by destroying public confidence, in that tribunal as there is no longer any doubt that he is prejudiced against Admiral Schley. Admiral Howison today acknowledged the receipt of the department's letter notifying him of the change in the place of holding the court, but he failed, according to Acting Secretary Hackett, to embrace the opportunity of asking to be relieved.

The failure of Admiral Howison to make known his intention regarding to serve in the face of well-authenticated charges that he publicly expressed himself as being unfavorable to Schley has caused considerable surprise here, except in certain circles in the navy department.

There are three ways in which Admiral Howison may be relieved of the duty assigned him by the department. The first is to ask to be relieved; the second is to wait for the court to determine whether or not he is eligible for service, and the third is to be challenged by the attorney representing Admiral Scalye.

NOT A WORD FROM ENGLAND'S PRIMATE

Delegates to Methodist Ecumenical Conference in London Next Week, Set to Wondering.

London, August 30.—Will the archbishop of Canterbury, officially or otherwise, send a representative to the ecumenical Methodist conference, which opens next Wednesday? This question, according to Bishop J. W. Hartzell, is attracting the attention of many of the delegates who are in London for this most important meeting.

The question is important, said the bishop, "because of the meaning which the outside world will place on the archbishop of Canterbury's action." Invitations were extended to all the churches to attend. Acceptances have been received from the Baptists, Congregationalists, Presbyterians and the Salvation Army.

The primate of all England, alone,

has not been heard from. We anticipate that the conference will have an important bearing upon the future growth of the church. It ought to tend to increase fraternity, dissipate the remnants of antagonism, and organize into unions the smaller bodies on the different continents. The aggressive propagation of Methodism will be carefully considered by the gathering.

Gambling and intemperance will have a prominent place in the program of the conference. The Americans hope that the conference will formally declare against ministers drinking. English sentiment is divided on this question. The conference will sit for twelve days, and Bishop C. M. Galloway will preach the opening sermon.

150,000 Trolley Line.

Kokomo, Ind., Aug. 30.—The Indiana Central Railway Company was incorporated here yesterday with a capital of \$1,500,000. The directors are F. M. Body and A. Ray of New York; C. H. Hoimes, Chicago; James Lynn, Wabash, Ind.; Allen Sherman, Kokomo, Ind. They will build an electric line from Indianapolis to Peru, Ind., a distance of eighty miles.

MORE FUNDS FOR NATIONAL GUARD SUM FOR 1901 FIXED AT \$25,490

Wisconsin's Appropriation From Uncle Sam is Twice as Large as Last Year—Will Permit of Improving the Service Very Much.

Money for much-needed improvements for Camp Douglas, as well as for the purchase of additional equipments for the national guard is provided by the large federal appropriation which the state will this year receive for national guard purposes.

Wisconsin share of the federal national guard appropriation is \$25,490, this sum being nearly double the amount which this state received last year. The total federal appropriation for national guard purposes is \$1,000,000. Of this sum New York gets the largest share, the appropriation for that state being \$76,470. Pennsylvania is second, receiving \$68,973. Illinois gets \$50,980, while Minnesota receives \$19,117, and Iowa \$27,614. Two other states—Tennessee and Virginia—receive the same amount as Wisconsin.

Plans for the National Guard

The plans of the national war department for the national guard next year contemplate a radical measure. Assistant Secretary Sanger, who had charge of the re-establishing of the national guard on lines which will make it of use in the time of war, has about abandoned the idea that he can do anything with the guard as it stands at present.

Secretary Root will make some important suggestions in his annual report, and

is quite likely to adopt the plan which Mr. Sanger at present is understood to favor.

Scheme for a Reserve

One proposition is to establish a national military reserve which will be entirely distinct from the state militia and which shall have the encouragement and assistance of the War department. It has been suggested that the reserve be made up of one regiment from each congressional district, making a large army in itself and one likely to be of great service to the government when it becomes necessary to augment the regular military force of the country.

It is doubtful, of course, if the reserve force would be of such great numerical strength as is represented by a regiment in every congressional district, but there is no doubt that several regiments of reserves could be formed in each of the larger states. Army officers would be detailed as instructors and lecturers, while non-commissioned officers—two perhaps, for each regiment, would act as drill masters. Such an organization of national character under the control of the government authorities would lend itself easily to the plan of military education which Secretary Root has in contemplation in the school he proposes to establish at Fort Leavenworth.

HOWISON LIKELY TO BE CHALLENGED

NEGRO MURDERER ELUDES THE POSSE

Mob Tortures the Negroes To Make Them Confess—Slayer of Miss Henderson Still at Large.

Washington, D. C., August 30.—"Bossie" Francis, the negro who murdered Miss Mary Henderson at Columbus, Ohio, on Tuesday night, has not been captured.

The posse of two hundred men who have been searching the woods brought to its aid this morning a number of bloodhounds. The animals took up the scent which led them to a coal mine at Blackwater owned by a negro, John Hardin. A thorough search of the mine was made, but no trace of the murderer was discovered.

The intimation that Francis was in hiding in the mine was given by one of three negroes who were strung up by the neck and threatened with death if they did not reveal what they knew about Francis. Emmet Davenport, Charles Briscoe and Bud Francis, a brother of the murderer, were found by the posse at midnight between Columbus and Holden. They acted suspiciously, but denied knowing of Francis' whereabouts. Briscoe was the first strung up. He stubbornly refused to say anything and was let go.

Davenport, after dangling a few minutes at the end of the rope became terror stricken and motioned to be let down. He then said Francis was hiding in a coal bank and offered to escort the posse to the place designated. A search of the place failed to reveal anything of Francis and the three suspects were sent to Warrensburg and placed in jail for safe keeping.

CATCHING DOGS AT BELOIT

City Ordinance Is Being Enforced and Catcher Is Unpopular.

Beloit, Wis., August 30.—There has been excitement on the streets all day over the enforcement of the new dog ordinance by the dog catcher. The license requires the licensing of dogs and the wearing of tags, and the people have been slow to regard it.

Today the dog catcher began his work and there were several rows, the police being called to protect the dog catcher from violence at the hands of irate dog owners. The ordinance will be enforced, however,

All sorts of dogs were there—little dogs, shaggy dogs and smooth dogs and hairy dogs—all bedecked and bejeweled with ribbons woven in and out of the openwork on their fancy collars, and with little knots of chiffon or velvet hanging about the tiny bell, which in nearly every case hung from the collar. The ribbons, chiffons and velvets in every instance matched with the trimmings on the gown of the dog's mistress.

AMUSEMENT NOTES.

"Here's to those whom we love and to those who love us, and to those who love those whom we love, and to those who love us," is an old toast introduced in the dinner scene of "The Climbers." Miss Amelia Bingham has received so many requests for it that she has complied by reproducing it in printed form, bearing in addition a fac-simile of her signature.

Visitors to New York are familiar with the hermitage, the resort on the Bronx made famous by F. Hopkins Smith in "A Day at Laguerre."

Mr. Clyde Fitch has employed it as an effective background for the third act of "The Climbers," which will be seen in this city at an early date direct from its run of 200 nights at the Bijou Theater, New York.

The "Foxy Grandpa" company of nearly fifty people and two baggage cars of scenery and effects en route from Atlantic City to Buffalo last Monday night due to a washout came very near missing their opening performance due to a washout on the Lehigh valley Railroad caused by a cloudburst which completely submerged the Vasburg tunnel, and had to be routed via the D. L. & W. and Erie R. R., whose energies and special trains enabled them to ring up the curtain but a few minutes late, when they opened to the capacity of the Lafayette theater, and turned hundreds away. Joseph Hart and Carrie DeMar were warmly received and the recipients of numerous curtain calls.

Amelia Bingham, whose production of "The Climbers" will be seen in this city at an early date, direct from its run of 200 nights at the Bijou Theater says, in a discussion of "The actress off the stage," "the actress whose success is the greatest is the one who leads the quietest life—thinking much, reading much, observing much, and who makes an effort after temperance in all things."

Burr McIntosh, the actor-photographer, who made the photographs of Mary Manning as "Janice Meredith," states that he has printed and sold since October 1st, last, over 7,000 of these pictures. Miss Manning's photographs, both personal and in character, are now in greater demand than those of any other stage celebrity.

Andrew Mack opened his season in "Tom Moore" in New London last Monday night, and begins his career as a Broadway star at the Herald Square Theater in New York next Saturday evening, August 31st. It was the unanimous opinion of the large party of New York managers and critics who saw Mr. Mack's performance in New London that he will score a notable success in New York.

The play is very interesting and affords him splendid opportunities to display his abilities, both as an actor and a singer. Rich & Harris have given the piece an excellent production both in scenery and costumes, which are true to the time of the story and the locale of the scenes.

It is seldom that our theater goers have an opportunity of witnessing a production of a farce comedy that contains as many pleasing features as contained in Wood & Ward's jolly, jingling satire, "Two Merry Tramps." The play is a decided novelty and is presented by an unusually clever company including Wood and Ward, the Elmos Sisters, Besse Bennett, the Hasty Brothers, James F. Green, Billy A. Griffin and other well known farceurs, all of whom introduce specialties of the latest sort, the individual and concerted musical numbers being the leading features of the performance. The company carries all of their own scenery and effects, requiring none of the house scenery whatever.

The Ferris Comedians will present one of their best plays tonight, "The Commodore." In it they use nearly a car load of special scenery. There will be twelve large battery guns used and over forty pounds of powder will be burned.

At the matinee tomorrow by special request, the company will repeat their opening bill—The Plunger. The prices will be 10 cents for children and 20 cents for adults.

YOUNG LADY HURT UNDER AN ENGINE

Trap Containing Five Girls Run Into by a Northwestern Train—

One Badly Injured.

At 5:15 o'clock yesterday afternoon a south-bound engine on the Chicago & Northwestern railroad struck a trap containing five young ladies at a road crossing in Fort Atkinson. Miss Mamie McMillan, a daughter of L. C. McMillan, proprietor of a meat market in Fort Atkinson, was caught by the engine and had her left limb badly crushed and her body bruised.

Dr. E. F. Wood's, the company's surgeon in this city, was called to Fort Atkinson and amputated the limb about six inches below the knee. He was assisted by Doctors Perry and Caswell of Fort Atkinson. McMillan and four young lady friends were out taking a drive in a trap. They drove onto the railroad tracks at a point where two large warehouses shut out the view of the tracks and any train that might be coming. They did not see the engine until it was almost upon them.

Miss McMillan in her fright jumped from the trap and fell directly in front of the pilot of the engine and was drawn under the wheels and crushed. If she had stayed in the trap she would have escaped injury as the balance of the party got off unharmed. Those in the trap with her at the time of the accident were Lillian Hamerson and Florence Menahan of Fort Atkinson, and Miss Jessup of Edgerton and Miss Howard of Columbus, Wis.

The engine was in charge of Engineer Jack Smith and Conductor Ed Lowry both of this city. It had broken down north of Fort Atkinson and had been replaced by another engine. It was being brought to this city for repairs at the time of the accident. The road crossing at Fort Atkinson is a dangerous place and the city has requested the railroad several times to make some provisions to guard it.

THE RE-REVISED BIBLE.

The American section of the international committee, appointed over fifteen years ago, to revise the Bible have flocked for themselves for some time dissenting from the action of the revisers in matters of English words and phrases. They were under contract not to publish their American revision for fourteen years after the "appearance" of the English revision, for commercial reasons, and now that the time limit has expired they come out with a book that undoubtedly will attract considerable attention from ministers and scholars out of curiosity, but not from the general public who are prejudiced in favor of the original King James version.

On examination it is found that the American version is more faithful to the original text, and the translating of many obsolete passages in the old book into modern English has clarified the text which many times is obscure and unintelligible to the lay reader.

A great many words have undergone a pronounced change in meaning since the King James version, such as "prevent," "let" and "lust."

These particular words now are the very antonyms of their former meaning, and consequently misrepresent the Biblical meaning to the uninitiated.

How many ordinary Bible readers know the meaning of such words as "ciel," "holpen," "hough," "marish," "minish," and hundreds of others equally obsolete.

The comparison of several passages will show the greater grace of diction and the clearer meaning exemplified in the American revision.

The book, typographically, is not perfect, and presents several features which seem to be ill-advised, such as the paragraphing and numbering of verses wherever they occur without reference to beginnings of lines with each verse.

The poetry of the Bible has been put into rhyme so as to sound more poetical, and yet the strict translations have been adhered to in all cases.

Although it is a valuable reference book, it will never take the place of the King James version.

CHARITABLE WORK.

The great majority of charitable workers are unable to see the direct results of their efforts because these efforts result in an influence on the life and character of the poor. But there is one organization in Chicago that is beginning to see the practical results of its efforts.

The free garden project of the Bureau of Associated Charities has been a decided success by making the more or less dependent poor under its care independent. Vacant lots were cultivated and planted with all manner of garden truck, the poor performing all of the manual labor and caring for the growth and watering of the plants all through the summer; now comes the good news that all of these dependent people will have a large quantity of a great variety of necessary vegetables, including potatoes.

Their feeling of pride that by their own efforts they are able to supply food for the winter can certainly be pardoned even if the bureau did furnish the land and seed.

This success undoubtedly will lead some to purchase small tracts of land which they can pay for from the surplus they raise and become eventually owners of homes with incomes sufficient to make them independent of any charitable institution.

This movement teaches thrift in a practical way and will be a source of pleasure as well as revenue to many young Americans whose highest ambition is to be independent.

PRACTICAL EDUCATION.

The Baldwin Locomotive Co. have instituted an educational system, which, if successful, will educate their employees while they are earning fair wages.

The school is of course a night school with the day work of the apprentice order correlated with the night instruction so as to be virtually a manual training course.

The young men are divided into three classes, the first consisting of boys who have received a grammar

school education; the second of those who have graduated from the High school; and the highest class consists of graduates from colleges and technical schools.

These classes are enrolled in three grades of night schools where their education is intended to fit them for general and particular mechanical work.

This is the scheme of the "World's Work," an up-to-date, well-edited and entertaining magazine, which proposes to do along practical lines what the "Cosmopolitan" has attempted along theoretical lines.

Of course the school will turn out more finished mechanics than can be accommodated at the works, but they will keep the best of the graduates, and the remainder will be in a better position to secure lucrative places than if they had spent the same time simply working in a shop with no instruction in the practical branches of education.

ANNIVERSARY OF THEIR WEDDING

Mr. and Mrs. Franklin Price Will Celebrate the 58th Year of Their Marriage Tomorrow.

Mr. and Mrs. Franklin Price of 1067 Wilcox avenue, Chicago, will celebrate their fifty-eighth wedding anniversary tomorrow. Mr. Price is well known to newspaper men, and people who have had business with the General Ticket department of the C. & N. W. R. R. Mr. Price has been in the employ of the railroad company for a great many years and is a genial gentleman. His many friends will congratulate him and his wife on their fifty-eighth wedding anniversary and wish them a continuance of life's journey. The following beautiful lines were composed by Mrs. Gussie Packard DuBois in commemoration of the anniversary.

They say that when young Hylas round a field,
In search of water for some Aronaut,
He stooped where drooping alders made a shield,
And at a tinkling spring the cool draughts
He sought.As, between the ferns he dipped his jar,
A bird sang softly from a tilting bough,
"Keep young!" a dallying gnat again, from far,
His song, I wonder if he told him how:Alas! poor Hylas! Nails for him sing,
And though each year they hold him fathoms deep,Beyond the sound of voices that would bring
His back to friends who yet his master keep:
The little hidden bird still trills his song,
Where drips the spring the mossy rocks between,
And where, through bending woodland boughs,
Day-long
The sunshines flecks the long, cool aisles of green.To none, save those who for their thirsting kind
Would carry water from some cooling spring,
Does this sweet bird in woodland depths enthrone,
Shrined.

His little gentle song of gladness sing.

Some heart, yet know not how to heed the bird;
To such the passing years bring grief and age,
Yet others, with young ears the strain have heard,

And each, like you, remains a youthful sage,

Still trickles, set in ferns, the water sweet,

Where, each day, dips your jar forthose who wait;

Early for others wear your patient feet,

Untiring go, nor weary when 'tis late,

O bird from out the alder boughs,

May we in patient service hear thy lay;

And heed him, white-haired, whose youth ful brows

We gladly crown this anniversary day.

DIES IN THE ELECTRIC CHAIR.

Joseph Zachelelo Pays Penalty for Killing His Mother-in-Law.

New York, Aug. 30.—Joseph Zachelelo, who stabbed his mother-in-law, Mrs. Caroline Muccio, to death at Tompkinsville, S. I., Jan. 10, 1900, was put to death today in the electric chair at Sing Sing prison. Three shocks were given before he was pronounced dead. Zachelelo married Marie Louise Muccio, a young girl, according to the civil law, but the bride insisted on having the religious ceremony performed. Zachelelo thought she was influenced by her mother and other relatives.

On the night of the murder he met his wife's brother and they quarreled and fought. Muccio used a knife and Zachelelo was slightly wounded. Afterward he went to the home of his wife, declaring he would take her away with him. He met Mrs. Muccio and slashed her with a knife, inflicting fatal wounds.

It is Likely That They Will Be Accommodated by the Sennissippi Players.

The Oconomowoc Country club are anxious to have a club match with the Sennissippi club and will undoubtedly be here on Friday, September 6.

SPARKS FROM THE WIRES

Fined for Not Swearing.
Portland, Ind., Aug. 30.—Eighteen members of the old Amish church residing in the vicinity of Berne have been arrested and fined for refusing to affirm to their assessment lists as required by law. They claim the creed of their church does not allow them to swear or affirm. Twelve were fined by justices of the peace and six by the town clerk of Berne, each paying \$10 and costs, this being as much more. The total amount of fines and costs reached \$368.30.

Finish Skagway-Juneau Cable.
Seattle, Wash., Aug. 30.—The laying of the government marine cable from Skagway to Juneau was completed on Aug. 23 and is now in operation. The steamer Lakme, which carried the cable north, has returned, bringing the news. When the missing link of the line in course of construction from Vancouver to Ashcroft is completed, in the next few days, there will then be direct communication from Skagway or Juneau from Seattle.

Young Minister Drowned.
Newport, R. I., Aug. 30.—Rev. Walter Lowrie, assistant to Rev. Wilson Merle Smith, the Central Presbyterian church of West Fifty-seventh street, New York, was drowned while bathing here. He had been visiting his friend and college classmate John Auchincloss for several days.

Crazed Hog Bites Woman.
Laporte, Ind., Aug. 30.—Mrs. Mary Keeney of Marshall county was attacked by a crazed hog and fatally injured. The "porker" threw her to the ground and literally tore large pieces of flesh from her body. The wounds were gouged to the bone.
